AB in Computer Science

Relevant Coursework: CS50, CS51, Math21a (Multivariable Calculus), Math21b (Linear Algebra and Differential Equations)

Cambridge, MA  
May 2019 (expected)

### Saint Francis High School

Cumulative GPA of 4.55 (weighted)

Mountain View, CA  
May 2014

## Experience

### Yiftee - Local Gifts, On-the-Go Software Engineering Intern

Menlo Park, CA

- Overhauled the company's existing Android app and rebuilt it from the ground up and in line with Material Design standards
- Integrated Twitter's API to enable sending gifts to a recipient via Twitter - over 500 gifts sent at corporate events within the first several weeks following deployment
- Designed and developed a management dashboard for reseller clients
- Built significant portions of the merchant portal for the company's 50,000+ partnering stores to manage their branding and oversee their gifting operations

January - August 2015

- Developed a web application that streamlined the use of our product by enterprise customers during trade shows
- Redesigned the layout and SEO effectiveness of significant pages for the company's clients
- Implemented an alternate method by which customers can purchase and use our product

June - August 2014

### Babajob

### Software Engineering Intern

Bangalore, India

- Developed realtime data-visualization applications for internal usage that outlined key company statistics on sales, applications, hires, and the demographics of our clientele
- Over 500,000 data points could be analyzed at a single time and amassed into interactive charts
- Redesigned the user interface by which users could adjust and complete their profiles, enabling realtime updates to candidates' resumes

September - December 2014

## Technical Skills

Languages: Android, Java, C#, Ruby on Rails, AngularJS, D3.js, CSS, HTML, JavaScript, jQuery, SQL, and XML.  
Portfolio: [www.erictimmerman.com](http://www.erictimmerman.com)
